completion of the Department of Roads construction and maintenance facilities now under contract. It says, "not to enter into further contract until a revised master plan is submitted", that's on the top of page 6. The Military Department is on the bottom of page 6 which includes the facilities at Chadron. The Game and Parks Commission is on page 7. You can see a listing there of recreation areas. The most important item on page 7 is the Aid to Political Subdivisions, lines 12, 13 and 14. The Department of Corrections is on the bottom of page 8. The State Colleges are authorized about the middle of page 9, Section 14, to make miscellaneous renovations in the amount of \$610,000. They're given some flexibility which they always haven't had in this area. Life Safety and Facility Preservations are lumped together for the technical colleges, \$271,892. The University of Nebraska, Section 16 on page 10 has to do with fire safety improvements; Med Center is also included. The University Miscellaneous Renovations on page 11. State Board of Agriculture and the repair of buildings on page 12. Historical Society at Fort Robinson on page 12. The DAS and the maintenance and care of the Capitol, those are the major items. This is strictly housekeeping measure. If there are no other questions, I renew my motion to advance the bill.
